### Industry-leading innovation

Alpha Resources have been developing, refining and using products for elemental analysis since 1978 and have a unique in-depth knowledge of instruments from all manufacturers.

Since its founding, Alpha Resources has continued to expand its product line and quality programs resulting in a broader range of high quality products for you and your customers. With our ever-growing product line, we can provide you with all of your routine consumable and certified reference material needs. Our quality accreditations (ISO17034, ISO17025, ISO9001:2015) give you the needed assurances that our products will perform in your customers' applications with consistency and predictability.
